Senior Frontend Developer with 4+ years of experience in full-stack web development, specializing in React, TypeScript, and modern web technologies. Proven expertise in optimizing frontend performance, Passionate about building scalable solutions, and collaborating in international teams.

WORK EXPERIENCE

Senior Frontend Developer, *Intelifox* – Algiers, Algeria (Remote)
Feb 2024 - present | Independent software development company (EU clients).

- Developed the frontend for an energy-sector social network, ensuring high scalability and responsiveness.
- Boosted performance by 62% through code-splitting, dynamic loading, and optimized architecture.
- Led the forking and customization of a component library, achieving +90% adaptability in record time.

Tech skills: React, TypeScript, Redux, RTK Query, Material-UI, Jest, RTL, REST, styled-components

Full Stack Developer, *Shard Labs* – Zagreb, Croatia (Remote)
Mar 2022 - Feb 2023 | Independent blockchain development agency (EU & US clients)

- Maintained & evolved the frontend of a $20M+ crypto-staking platform on Polygon using Next.js, and TypeScript.
- Built the frontend of a crypto lending protocol on Aurora using Next.js.
- Built the frontend for a Proof-of-Attendance protocol on NEAR, debuting at NEARCON and minting 1000+ NFTs,

Tech Skills: React, TypeScript, Next.js, TailwindCSS, styled-components, headlessUI, REST, hardhat, near-api-js, Ethers.js.

Full Stack Web Developer, *Namla* – Paris, France (Remote)
Nov 2021 - Mar 2022 | Deep-tech startup specializing in Cloud-Edge orchestration and SD-WAN.

- Built the first building blocks of the cloud orchestration platform using React, TypeScript, and React-Bootstrap.
- Implemented the company's inaugural website, driving its online presence and brand visibility.
- Documented new UI components and best practices on Confluence.

Tech Skills: React, TypeScript, Bootstrap, Docker, Gitlab, Agile, HTML, CSS.
